

PARENTS:
**ARE YOU CONCERNED ABOUT YOUR
CHILD SUCCEEDING IN
SCHOOL?**

**DOES YOUR CHILD HAVE AN
INDIVIDUALIZED EDUCATION PLAN
AND RECEIVE SPECIAL
EDUCATION SERVICES?**

UB's Center for Children and Families is looking for **children between the ages of 6-12**, who have attention-deficit/hyperactivity disorder (ADHD) and receive special education services at school. The goal of the study is to determine whether behavior modification procedures can improve the effectiveness of special education services.

If your child qualifies, your family will be assigned to receive additional psychological treatment or to continue with the school-based interventions your child would typically receive. Psychological treatment includes school consultation and parent training meetings.

There is no fee for participating in this study. All psychological treatments will be provided free of charge.

To learn more or to apply, call the Center for Children and Families at 829-2244 ext 167.
